“ I just heard that Donn has made his transition home ... Bless his sweet soul.

My sincere condolences, and I wish all Donn's family peace beyond measure.

Donn was a good friend, a great listener, and such a warm, friendly conversationalist. He will be missed.

I can imagine how much fun he's going to have getting reacquainted with Roy Rogers, and I hope they enjoy some great times together on the other side.

Love and Light to all Donn's family and friends. Blessed be your path.

“ *Donn was always special to me and one reason I went into the dialysis center to work. Later I decided I wanted more than just being a technician. I remember the fun we had at his fund raiser in Lancaster. It was such a loving and fun time for all the family and friends as we raised money for his transplant. Donn was special and will always be special to me. You are in my prayers and thoughts as you go through the days ahead. May God's arms uphold you as only He can. God's strength will call you through when you don't think you can go another day. God Bless and keep you.*

Love Donna and Family
