“ *Martha, Terry, and Lance:
I am so sorry to read about Billy Don's passing. He was a wonderful and kind man. I have many fond memories of him from when I worked at Corsicana National Bank. Billy Don and Terry would come and take care of the electrical problems for the bank or they would just stop by for a visit with the employees.
My thoughts and prayers are with you and your family.
God Bless each of you.

Martha you have always been a part of my life since we were neighbors growing up on West 13th Avenue. “ *Martha and family,
Although no words can really help to ease the loss you bear, just know that you are in my thoughts and prayers. Hold tight to all those memories. May all the love around you and your family right now help in the days ahead. May God be with you every moment to help you with all this hurt. Billy Don was a great classmate for our CHS Class of 1959 and truly supported all our efforts. He was such a genuine person. I know he had every hope he could conquer these health battles. He will be so dearly missed. I will miss his persistence on keeping our class connected. Martha, thank you for sharing yours and Billy Don's time with our class all these years. That is what I will remember. I am especially thankful I attended your Big 50 wedding anniversary.*

“ *B.D. will be greatly missed. I met him a few years ago and started taking care of the yards at his properties. He struck me right off as a good, fair man and we quickly became friends. I admired him for his wit and values and he came to replace, in my mind, my older brother who died in 1974. I guess my favorite memories of B.D. are his stories about life when he was growing up in Corsicana, and the day when i was doing the yard at the house when he came out on his walker carrying a bag of trash. I shut off the mower and hollered to him to put the bag down, that Martha would skin us both alive if she caught him doing it and me letting him!
I'll miss you B.D.. Hope you have plenty of chicken!
Love,
Larry*

“ *Billy Don was one of my first employers when I was just out of high school, worked in the office of Watkins electric the summer of 1970. He was very patient with a young girl and taught me many things about the working of a small office. I even learned enough about electrical work to know that is not what I was good at, but I did learn many of the different supplies needed to do a job. He was one of a kind... Judy Warren Gammill*
