“ The Billy Barlow family,

I am so sorry to hear about your mother. She was such a sweet lady, as I attended church at Calavary with her. I know through stories from my mother June West Alexander that they have been friends a long time. Her father is the preacher that married my mother and father. So our families are intertwined in many ways. Always remember the good times and her memories will help you through these times. God bless you all and my thoughts are with you all. Love Mrs. Terri (Davis) Higdon

“ Pat and family,

I just found out about your mom's passing. I am very sorry. I will keep you all in my prayers. My mom did not know either and is very sad she was not able to attend the service. She wanted you all to know that she would have been there. Please take care.
