“ *I will miss this very kind gentlemen. In the first few years that I worked with him he was a quietly,discreet, poised,disciplined,refined and very defined, but always polite gentleman, although his health and demeanor had changed thru the years he still held all those qualities in his smile and his eyes and speech when he was not in a distant place. It has been my pleasure to have worked for him and an even better pleasure to have known him and see his eyes light up with an acknowledging smile and hello.Many blessings to you Sir, You Will Be Missed,and Thought of often.*
