“ Elaine, may you and your family receive the comfort of the Comforter in this time.

I am thankful for the privilege of working with Heinz at Bell. I appreciate his first-class professionalism in addressing and communicating complex issues with integrity and respect.

I also have been greatly benefited in his investment of time as he was my mentor for High Intensity Radiated Fields and Lightning for the Organization Delegation Authorization.

But even more so, the day after I was RIFed from Bell he reached out to me and provided me a contact who became my manager at Sikorsky.
