“ Marjorie, I have searched for you and your mom for years and just found this on the internet. I have so many fond memories of your mom. My deepest condolences to you and your family. The first thing I remember is her always working in her yard. She used to be outside all the time. I remember having my my very first Cactus cooler in her kitchen the day my grandma died, and your mom had you take me and the dog for a walk around the block while they came after my grandma. She had such a laugh I can hear it now. I've heard in my mind all these years. Too many to count. I had always thought that I would be able to thank her one day for all the special memories. I went back to see her after we moved, she didn't answer the front door, but I went around to the gate and called her name, sure enough she popped her head out from the side of the garage, there she was working in her yard. I am the neighbor who lived across the street from you in Santa Ana.

“ *Helga was one of my favorite people. She worked for me on the mail table at Collin Street Bakery before switching to taking calls in the office. She was a beautiful and unique person who I always considered a friend rather than an employee. I loved listening to her interact with people from all over the world. She was most excellent!!! Love Ms Randy*
