“ *I'm sorry for your loss. I remember your father as being bigger than life when we were growing up. The trophy room at your house was proof positive of his great hunting skills. Thinking of you, Becky*

“ I first knew James as Linda's dad when we were growing up. Many years later he became a close friend to me. We shared many many hours talking about old times, new times, investments, children and grand children and lots of time about food. (He loved a good meal) We shared stories about guns and pets too. He was very very special to me and I am blessed to have had those wonderful times with him. He will be missed always. I pray for his family and friends that God comforts you in your time of loss. Much love to you all.

“ It was my pleasure to work for Mr. Cerf for about a year and a half. At that time, I was privileged to meet most of his family. I send my sympathy, condolences and love to all of his wonderful family and to Myra as well. I learned a great deal, particularly about the history of this city, from James and I am happy I had the opportunity to do that. He and his family certainly made a large contribution to this area and we should all be grateful to them for that. My best wishes to you all.

“ Linda, Dave, Anson, & Brooklyn: Our thoughts are with you during this trying time. We know how very much you loved your dad and that you will deeply mourn his passing while also remembering your beloved mom on the anniversary of her yartzheit in just a couple of days. We wish we could take away some of your pain, but only time can accomplish that. May both your parents rest in peace.
