“ He was a character in a GOOD way. He had the best deer pan sausage and trust me it was good. However, what I remember most is that he would always eat my Year New food (green, candied yams, cornbread, black eye peas, hog maw, and chittlings and would ask for more. I really enjoyed him.

“ He was my partner when we were working at Northwest patrol evening shift. We had plenty of good memories in that patrol car. When we started each shift, he would stop at the different "Stop & Go" stores to get a drink only to dump it out so he could spit his chewing tobacco in it. He would put it on the dashboard of our shop (patrol car), and I would watch it slide back and forth just waiting for it to spill all over me. Those were some good times. I look forward to seeing Lonnie again when we partner up patrolling the streets of heaven.

“ Worked with Lonnie. What a good Policeman. He took me deer hunting at his deer lease once as a guest, and of course he made me cook. He also married, the sweetest girl in my Police Academy class, Nancy Sanders. R.I.P. my friend, until we meet again
