“ *I always looked up to him . Uncle Milton taught me a lot when I was young.
I really wish I could have been around him
In the later years. I've thought of him a lot lately always with a smile on my face.*

“ *I remember fun times at the large family gatherings with Lee performing as the chef for the group. He was quite a grillmaster. He was always generous and would have given the shirt off his back if someone needed it. He was also a true friend who was always there for Gayland and me. RIP Lee.
Sending prayers out for Barbara and the family.*
