“ Sue will be missed for sure. When I went back to work after daddy passed away Sue was there.. She told me she was so sad she couldn't go to his funeral. Her and daddy were good friends for many years. Im a nurse at Twilight and work nights.. There were several nights she couldn't sleep and would sit up with me while I worked and tell me stories of some of the stuff her and "Punchy" would get into. When she got sick this last time she told me she knew it was time and said that she couldn't wait to see daddy again and see what all they could get in to. Sue was so down to earth and real. You don't find that in a lot of people these days. She was such a character. She was special and will be so missed but I know daddy was there waiting on her.. God's got his hands full with those two.. RIP my friend..
Thoughts and prayers to the family..
