“ *I just found out about my precious friend. I met Suzanne back in '76 I believe. I met her in the old Memorial hospital when I was a deputy. She was a kind loving beautiful inside and out lady. She and I became friends pretty quick and we always shared lots of laughs. When I had my last baby she came to my room as I was getting ready to go home. She had my baby in her arms. She began dressing her.. She wouldn't let me carry her out (which I didn't mind at all).*

Suzanne and I pretty much lost contact after that. Life got in the way. Lol! I don't know anyone that could make your day brighter. I will never forget Suzanne. .My heart goes out to the family.

“ Suzanne will always be remembered! I cherish the memories. She was loved and she showed us how to love. What a blessing to others that she became a "nurse". Her many talents and caring spirit are examples for all nurses. She truly made a difference! I will keep close her words of advice and her people skills. Continue her legacy and make a difference.

“ My heart goes out to Suzanne's family during this time of grief. I remember Suzanne as my "angel on earth" shown to me as a patient. I went through a time of extreme anxiety and depression and Suzanne was an anchor to me. She would counsel with me and calm me down. Suzanne was my inspiration to go into nursing and I am thankful for the loving person she was. She was a blessing to me. She showed God's heart to someone who needed her compassion.

“ I remember Suzanne from our days at NRH. She was a "nurse's nurse"! When she was in charge, I could be assured that all was well with patients and staff. She was great with patients and staff...not a lover of paperwork though (ha-ha)! I remember being at Plano when she had heart surgery and our Father brought her through. We shared many laughs and, yes, tears. Always we were able to support each other and end with some smiles. I regret that I will be unable to be with since I am in Colorado. However, I am with you in spirit. God bless all of you, Marilyn Butler Schmidt
