“ *Dear Angela,*

*I did not know your mother personally, but based on your love and devotion for her she must have been a very fine lady. I have been where you stand now and my heart goes out to you and your family. Having buried both of my parents and having been very close to them, the pain of their loss seems almost unbearable at times. Eventhough, we don't want them to be in pain we are still selfish enough to want to keep them with us. Take comfort in knowing you were there for her until the end of time, and what a special guardian angel you have right now in Heaven.*

*Love and prayers to you and yours,*

“ We dropped by to visit with her in ICU @ Baylor about 3 wks ago. It was good to see @ that time that she recognized us but she couldn't speak due to the respirator. We heard she had another stroke about a week later. It's so hard to believe that she was just participating as "the cookie monster lady" during VBS in June and now our savior has taken her home to serve him there. She kept me laughing and she will be missed.
